

## PRESIDENT APPEALS TO FELLOW AMERICANS FOR DEMOCRATIC CONGRESS

**Declares Failure Would Seriously Impair Power to Prosecute War—Action Electrifies Republicans Who Issue Formal Reply Pointing Out Consistent Support of War Measures.**

WASHINGTON, Oct. 25.—President Wilson in a statement today addressed to his fellow countrymen asked them to return a Democratic congress in the November elections if they have approved of his leadership in this critical time. Failure to return a Democratic majority to both the senate and house of representatives, the president said, not only would seriously impair his power to administer "the great trust assigned me by the constitution", but would be interpreted abroad as a repudiation of his leadership.

The president's action electrified Republicans at the capital who issued a formal reply in the name of the party leaders in the senate and house and the chairmen of the senate and house Republican congressional campaign committees. The Republican statement, declaring the minority party in congress had supported the administration policies since the war with an unanimity and an absence of criticism unprecedented in party history, pointed to the record as proof.

The war, the Republican statement contends, is not the president's personal war, nor the war of congress, nor of a party, but of the American people and declares the Republican party representing more than half the citizenship of the country demands its rightful share in the burdens and responsibilities it imposes.

If given a majority in either or both houses, the leaders said, the Republican party would drive forward the war and hasten victory and would "check the waste now going on of money," given by the nation.

Several senators and representatives, both Republican and Democrat, issued personal statements during the day and most leaders on both sides prepared for the debate which was expected in the senate when it re-assembled Monday after the week-end recess and possibly in the house.

### Wilson's Appeal

Following is the president's appeal:

"My fellow countrymen: "The congressional elections are at hand. They occur in the most critical period our country has ever faced or is likely to face in our time. If you have approved of my leadership and wish me to continue to be your unembarrassed spokesman in affairs at home and abroad, I earnestly beg that you will express your approval by electing a Democratic majority to both the senate and house of representatives.

"I am your servant and will accept your judgment without cavil, but my power to administer the great trust assigned me by the constitution would be seriously impaired should your judgment be adverse and I must frankly tell you so because so many critical issues depend upon your verdict. No scruple of taste must in grim times like these be allowed to stand in the way of speaking the plain truth. I have no thought of suggesting that any political party is paramount in matters of patriotism. I feel too deeply the sacrifices which have been made in this war by all our citizens, irrespective of party affiliations, to harbor such an idea. I mean only that the difficulties and delicacies of our present task are of such a nature that it is imperative necessary that the nation should give its undivided support to the government under such a unified leadership and that a republican congress would divide the leadership.

"The leaders of the minority in the present congress have unquestionably been pro-war, but they have been anti-administration. At almost every turn since we entered the war they have sought to take the choice of policy and the conduct of the war out of my hands, and put it under the control of instruments of their own choosing.

"No Time to be Divided. "This is no time either for divided council or for divided leadership. Unity of command is as necessary now in civil action as it is upon the field of battle. If the control of the house and the senate should be taken away from the party in power and opposing majority could assume control of legislation and oblige all action to be taken amidst contest and obstruction.

"The return of a republican majority to either house of congress would moreover be interpretative on the other side of the water as a repudiation of my leadership. Spokesmen of the republican party are urging you to elect a republican congress in order to back up and support the president, but even if they should in this impose upon some credulous voters on this side of the water they would impose on no one on the other side. It is well understood that as well as here that the republican leaders desire not so much to support the president as to control him.

"The peoples of the allied countries with whom we are associated

### Republican Reply

The statement issued today by Republican leaders in congress follows:

"Some time ago the president said, 'politics is adjourned'. Now, in the closing days of the campaign delayed by the united efforts of all parties for the Liberty Loan, now, when all public meetings have been given up owing to the influenza epidemic the president sends out a direct party appeal calling upon his countrymen to vote for Democrats because they are Democrats without any reference to whether such Democrats have been or are in favor of war measures and have a war record which deserves support.

"The voters of Michigan to take a single example are called upon to support Mr. Henry Ford—notoriously for his advocacy of peace at any price, for his contemptuous allusions to the flag, for the exemption of his son from military service—on the sole ground that he will blindly support the president. The president is quite ready to admit that Republicans are loyal enough to fight and die, as they are doing by the thousands; loyal enough to take up great loans and pay enormous taxes; loyal enough to furnish important men with no salary on some of the great war boards in Washington. But they are not loyal enough in the president's opinion, to be trusted with any share in the government of the country or legislation for it.

"What Republicans Will Do. "If the Republican party controls the house we can point out some of the things they will do. They will replace Mr. Dent of Alabama, at the head of the military affairs committee with Mr. Julius Kahn, to whom the administration was obliged to turn for assistance to take charge of and carry the first draft bill against Mr. Dent's opposition. They will put a Republican at the head of the ways and means committee, as leader of the house instead of Mr. Kitchin of North Carolina, who voted against the war. They will give the country a speaker who did not oppose and would never oppose a draft bill and would never say, as Speaker Clark did, that 'there is precious little difference between a conscript and a convict.'

"Altho the Republicans of the house are in the minority they cast more actual votes on the Democratic majority than the Democratic side were in favor of such measures. Those were the president's own measures. Does that record look as if we had hampered him? The Republican party in congress has supported the administration policies since the war with a unanimity and an absence of criticism unprecedented in party history. "There are some domestic questions where we should undoubtedly

## WAR SUMMARY

News of Activities On Various Battle Fronts in Summarized Form By Associated Press.

The Germans in Belgium and France still are stubbornly resisting the attempts of the entente allied forces to break thru their lines and bring about an immediate collapse of their defensive positions. On the whole they are succeeding but nevertheless on all salient positions under attack the enemy line is being forced backward.

On the northern Italian front between the Brenita and Piave rivers the Austrians are being put to the test in a new attack by British, French and Italian troops while in Mesopotamia the British again have gone on the offensive against the Turks and at last accounts were making considerable progress. In Albania and Serbia the operations of the Allied forces are tending toward the slow but sure evacuation of the invaded districts by the enemy forces.

In the northern French theater the British are centering their efforts south of Valenciennes to cut the salient between the city and LeQuesnoy. The two fold purpose encompassed—Valenciennes and reaching the Belgian border.

Everywhere the Germans are offering the stiffest of resistance but nevertheless they have been compelled to give up the town of Maing and most of the intervening points southward along the railway to LeQuesnoy, which now is all but in British hands.

Between the Oise and Serre rivers American naval gunners with sixteen inch guns have been hammering the French line northward to give up the key point positions in the German line. American shells from these guns are being hurled against both Vervins and Rozoy. Further progress has been made by the French in this region but only after the hardest kind of fighting.

Likewise on both sides of the Meuse river the Americans have advanced their line notwithstanding the strong resistance of the enemy. North of Grand Pre which lies in the valley above the famous Argonne forest several hills of the utmost importance from a strategic standpoint have been taken from the desperately resisting enemy machine gunners and artillerymen. Numerous violent counter-attacks have been launched by the Germans against the Americans, but all these have been successfully sustained. The Germans in the region north of the line of Vouziers and it is probable they soon will be compelled to re-adjust their line north of Vouziers to the region of Etain.

### WILSON'S COURSE APPROVED IN ENGLAND

LONDON, Oct. 25.—The evening newspapers greet President Wilson's reply to Germany with unqualified approval. The Westminster Gazette says:

"President Wilson has taken the German government at its word and proposes a course of action which must be a test of its sincerity. We will not speculate what the terms of an armistice as defined by President Wilson may be. They will be laid down by Marshal Foch and the allied and American commanders."

The Pall Mall Gazette says: "The world will realize once more that President Wilson carries an iron hand under a velvet glove. It is needless to say that his answer will be endorsed with enthusiasm by people and armies of all civilized powers. The issue within Germany may be hastened by the president's frank intimation that present constitutional changes carry no convincing mark of permanence or sincerity."

### DISAGREE OVER WORKING CONDITIONS

CHICAGO, Oct. 25.—Oscar Nelson, conciliator for the department of labor in the dispute between the Egg Inspectors Union here and the food ministry explained today on the eve of a conference with the contending parties that the union complains that one of several firms with which the British government has contracts has refused to employ union inspectors. Other firms the union men at work here said, but the organization has threatened to call out all its men in the city unless the one firm uses union inspectors. From another source it was learned that the union called such a strike last night but was told by John Fitzpatrick, president of the Chicago Federation of Labor, to await action by federal authorities.

### FOOTBALL IN THE EAST

New York, Oct. 25.—Service teams figure prominently in the new football games which appear likely to be played in the east tomorrow.

### GRANDSON OF GEN. SIBEL KILLED

New York, Oct. 25.—Corporal John E. Sigel, who was reported in today's casualty list as wounded in action is a grandson of General Franz Sigel of Civil War fame.

## GERMANS PUT UP STIFF RESISTANCE AGAINST FRENCH

**Dispute Every Foot of Ground in Their Possession**

IN FRANCE, Oct. 25.—(By The A. P.)—General Debeney's attack between Mont D'Origny and the valley of the Serre is meeting with very stout resistance. The battle was raging around Villers-le-Sec, which was occupied by the French troops. The Germans have brought up three fresh divisions to this sector in the past few days and appear determined to dispute possession of every foot of ground.

They are particularly favored by the character of the terrain which is very broken, furnishing strong natural obstacles which the enemy has utilized to the utmost by adding field fortifications upon which they have been working for the past four weeks. The position General Debeney's men are attacking from Kibecourt southeast to the valley of the Serre is called the Herman position by the Germans. Considerable of its general characteristics has been learned from captured orders and the reports of aviators. This is not supposed to have the same strength as the Hindenburg line, but is sufficiently strong to permit of a strong defense. Behind this line, again, there is extension of the Hindenburg position to front of Guise, to which the Germans no doubt will retire when the present battle is finished. In the valley of the Oise the Germans have formidable defenses strengthened by the natural defenses of flood plains from the region of Guise southward to LaFere. Dams prepared long ago for use in the eventuality of a retreat have enabled the Germans to divert the waters of the Oise and spread them thru the valley. They also have another water line in the valley of the Serre to protect their present positions. In spite of the formidable obstacles encountered and almost constant service in the fighting line for the past three months the French of General Debeney continue to forge ahead and will soon have driven the enemy back upon the old battle fields of the retreat from Charol in 1914. The Germans are expected to make a stand around Guise where the French held them up for a short time during their march to the Marne.

Tactics of the Germans to appear to be to hold this line as they can, forcing the French troops to deliver an attack to drive them from each halting place. This plan aided by the nature of the ground over which they are retreating obliges the Germans to make great sacrifices as is shown by the increased number of dead found on the battlefield.

## YANKES MAKE SLIGHT ADVANCE IN MEUSE SECTOR

**Germans Put Up Stiff Resistance Against Americans**

WITH THE AMERICAN ARMY NORTHWEST OF VERDUN, Oct. 25.—(By The Associated Press) —S. P. M.—From a day of unusually severe fighting the Americans emerged tonight slightly in advance of the positions held yesterday. Gains are slight, but are regarded as extremely important especially on the left, where higher ground dominating much of the surrounding terrain has been gained.

There has been comparatively little alteration in the positions on the center but the American footing in Belleu woods, east of the Meuse was more surely fixed notwithstanding the determined efforts of the Germans to force the Americans back.

The fighting for positions just beyond Belleu woods began at four o'clock this morning when the Americans drove their way forward. At daylight the Germans counter-attacked and since the failure of that operation have launched three other attacks equally unsuccessful.

On the extreme left the gains made by the Americans left them at the close of the day on the ridge extending from Talmia farm to Bellejoeye farm, on a line thru the Bourgoigne wood. Clouds and ground mists reduced aerial activity to a minimum, but artillery, employing both high explosives and gas projectiles in enormous quantities was used by both sides. Besides the offensive reaction at points where the defensive was in progress the Germans devoted much fire to the back areas and that portion of the front about Banterville where the American line was advanced slightly.

Despite the desperate resistance of the Germans and their apparent intention to initiate a counter offensive information falling into the hands of the Americans continues to indicate an enemy withdrawal to the Briquigny line, one informant declaring it to be the intention of the Germans to withdraw to that position between Oct. 25 and 31.

WILL DIVIDE MONEY. Chicago, Oct. 25.—The \$16,000 donated to war charities from the world's series receipts will be divided among the Y. M. C. A., National Catholic War Council, Y. W. C. A., Salvation Army, American Library Association and the American Library Association and the War Camp Community Service, Secretary of War Baker advised President Ben Johnson of the American League today.

WILL LET QUARANTINE AT CAMP GRANT. Camp Grant, Ill., Oct. 25.—The Camp Grant quarantine established five weeks ago will be lifted next Tuesday, according to an announcement today by Lieut. Col. George B. Lake, camp surgeon. The ban on church services, public meetings and theaters continues in Rockford, but conditions in the city are improving rapidly.

## Influenza and Pneumonia Show Big Improvement

WASHINGTON, Oct. 25.—Three army camps did not report a single new case of influenza today and only two, Kearney, California, and Lewis, Washington, reported more than 100 cases. The total of new cases for all camps, a statement from the office of the Surgeon General said, was 2,375 against 2,772 the day before. Pneumonia cases decreased from 699 to 500 and deaths from 307 to 241.

The camps which reported no new cases were Wheeler, Ga., Custer, Mich. and Meigs, District of Columbia. Camp Dix, N. J., which reported no cases yesterday, had three today, but Major General Scott, commandant, notified the surgeon general today that the quarantine at the camp as the result of the influenza epidemic had been lifted.

Illinois Situation. Chicago, Oct. 25.—Altho diminished reports of influenza deaths and new cases in Chicago and Northern Illinois today gave promise of an early lifting of the quarantine in this city, Chicagoans were asked by health Commissioner Robertson to observe a volunteer curfew at 9 o'clock tomorrow night. Dr. Robertson advised lights out at ten o'clock and that all persons remain at home Sunday so far as possible. Of the situation, Dr. C. St. Cl. Drake, state health director, said: "Reports from the Chicago district are very hopeful for an early lifting of the quarantine restrictions made necessary by the influenza and pneumonia epidemic."

State Health Director Drake today received reports of 7,415 new cases of influenza in 309 communities down state.

## COL. HOUSE IN FRANCE TO ATTEND WAR CONFERENCE

**Sent As Special Representative of President Wilson**

WASHINGTON, Oct. 25.—Arrival in France of Colonel E. M. House, President Wilson's personal representative and Admiral Benson, the highest ranking officer in the American navy, has cleared the way for the beginning of such deliberations by the supreme war council at Versailles as may be necessary to frame draft of an armistice to be submitted to Germany.

It was said today in official quarters that Colonel House would not be a member of the council, at least for the present; that he simply is the eyes and ears of the president in Europe, charged with ascertaining the exact state of public and private feeling in regard to all matters connected with the war. Possessed of full knowledge of this nature, it is believed the president will be even better prepared than heretofore to deal with every phase of the complex problems that will arise as negotiations for an armistice and peace are fully under way.

Entente Views. Individual views of the entente powers are certain to develop as the result of the action of President Wilson in boldly stating the war aims of the United States; in fact, it is understood that the president desires to have these disclosed at the earliest possible moment so that a united front on the questions might be presented to the common enemy by prior agreement among the countries fighting the central powers.

Colonel House will be in a position to learn these separate views and perhaps to reconcile apparently conflicting interests and desires thru personal discussions. Later Colonel House may take a place at the council table if President Wilson desires. The president has a vote in the council in the disposition of political matters and it is regarded as possible that he may delegate this power to Colonel House. It has been suggested, however, that the use of the term "vote" in connection with the proceedings of the council is misleading.

What is meant, is rather a voice in the proceedings, for there is to be no voting in the ordinary sense, no question of majorities or minorities. The members are charged to broach freely for discussion any subjects they please and if any line of action is deemed necessary each representative will notify his own government of the general sense of the council and it will be for the home governments to give the necessary instructions for any change in policy.

### ROOSEVELT COMMENTS ON WILSON'S APPEAL

OYSTER BAY, Oct. 25.—Commenting tonight on President Wilson's appeal to the people to return a Democratic congress in the November elections if they approve of his course, Colonel Theodore Roosevelt said: "The president's statement is an announcement that he is a partisan leader first and president of all the people second. "It is of course, the repudiation of one of his former statements to the effect that politics was adjoined by the senate, which, of course, he has already repudiated by his action.

"I have no comment just at this moment but I will deal with the matter in a speech after I have had time to read the document which all good Americans will regard as the most lamentable appeal to politics ever made by a president during a great war which has been heartily supported by all good citizens without regard to party, but which so far as there have been party differences at all has been more heartily supported by his political opponents than by his political friends."

### REACH AGREEMENT ON APPORTIONMENT BILL

WASHINGTON, Oct. 25.—Agreement was reached today by senate and house conferees on the six billion dollar military appropriation bill passed yesterday by the senate and last week by the house. The conference report will be submitted to the house tomorrow and to the senate Monday.

The provision in the house draft giving the secretary of war the authority to acquire land for the construction of hospitals, eliminated by the senate, was compromised so to give the secretary power to construct hospitals but not the authority to condemn land. Appropriations for the purchase of land for rifle ranges at Fayetteville, N. C., and near Louisville, Ky., eliminated by the senate were not reintroduced.

GIVEN VOTE OF CONFIDENCE. Copenhagen, Oct. 25.—The German reichstag has given Prince Maximilian, the German chancellor, a vote of confidence, the ballot standing 193 to 52, according to Berlin dispatches received here. Twenty three of the members did not vote.

## STATEMENTS

Official Communications Issued By Belligerent Countries Regarding War Situation.

LONDON, Oct. 25.—The following communication dealing with aviation was issued, this evening:

"We heavily attacked the railway junction at Hiron Wednesday during the day. Four enemy machines were shot down. Ten of our machines are missing."

BERLIN, Oct. 25.—Via London.—The official statement issued from the general headquarters tonight says:

"Enemy attacks between the Lys and the Scheldt were repulsed. French attacks on a front of about fifty kilometers from the Oise and the Serre were unsuccessful. East of the Aisne and on both sides of the Meuse there were partial engagements."

PARIS, Oct. 24.—The French today advanced their line at all points, despite the most stubborn resistance of the enemy. More than 2,000 prisoners were captured and machine guns were captured, according to the official statement issued by the war office tonight.

The communication shows that French patrols have crossed the Danube river and invaded Roumania near Lompkanka, defeated German detachments, and taken prisoners.

"Between the Oise and the Serre our attacks are continuing with success. Our troops have greatly increased their advance north of Villers-le-Sec and have taken the Ferrieres farm. Between Villers-le-Sec and the Ferrieres farm we have taken strongly organized positions despite resistance of the enemy who counter-attacked several times. Up to the present we have counted 500 prisoners.

"On the Serre front we have crossed the river and between Crey and Mortiers have established ourselves on the north bank of the river on a width of more than one kilometer."

LONDON, Oct. 25.—Nine thousand Germans have been made prisoner and 150 guns have been captured by the British in their attacks against the Germans, according to Field Marshal Haig's communication issued tonight:

South of Valenciennes the British have reached the entire railway line on the front between LeQuesnoy and Maing. The text of the communication follows: "We have continued our advance on the battle front south of the river Scheldt.

"We have captured Semperiese and Quenening and reached the line of the LeQuesnoy-Valenciennes railway from the northwest of LeQuesnoy to the east of Maing.

"In the afternoon several counter-attacks were repulsed on this front.

"During Wednesday and Thursday on the Sambre-Scheldt battle front the first, third and fourth British armies captured 9,000 prisoners and 150 guns. North of Valenciennes we have cleared the enemy rearwards from the Villages of Bruille and Buridon."

### COAL MINERS PLEDGE SUPPORT TO PERSHING

WASHINGTON, Oct. 25.—Assurances were given General Pershing that the mine workers of the country are determined to furnish all the coal needed by the military forces in a cablegram sent to the American commander today by Fuel Administrator Garfield. The message was in response to a cablegram recently sent by General Pershing saying: "The more coal the sooner we shall have peace."

Frank J. Hayes, president of the United Mine Workers of America sent a similar reply to General Pershing a few days ago. The message sent by Dr. Garfield emphasized the patriotic endeavors of the miners, saying that in six months an increase of more than thirty-seven million tons had been made over the amount mined in the corresponding period last year.

### WOMAN AND BABY FOUND IN RIVER

PEORIA Ill., Oct. 25.—With the positive identification this morning of the bodies of a woman and baby taken from the Illinois river here Monday as those of Mrs. Irene Jackson and her little boy, aged one year, police began a wide search for Charles Jackson, the husband and father. The identification was made by Mr. and Mrs. John Grubb, parents of the woman, who arrived here from their home in LaSalle, Ill. Jackson and his wife and baby lived in a houseboat on the water front. The woman and child disappeared Sunday, October 13, and next day Jackson told neighbors they had gone away. Since then he has been missing. The bodies were taken from the water about a mile apart.

### IMPROVEMENT REPORTED

Lansing, Mich., Oct. 25.—Continued improvement in the influenza epidemic was indicated in reports to the state board of health were reported for the 24 outside of Detroit and Camp Custer, 689 new cases and 25 deaths were reported for the 24 hours ending this afternoon, Detroit reporting at noon listing 829 new cases and 56 deaths in 24 hours.

There were four deaths due to pneumonia at Camp Custer since Thursday afternoon.

## ITALIAN FRONT ACTIVE AFTER LONG SILENCE

**3,000 Prisoners Taken In First Day of Big Fight**

WASHINGTON, Oct. 25.—The sudden flare of activity on the Italian front after months of almost complete quiet, attracted quick attention today among military officials here. It was noted however, that first official reports from Rome carefully refrained from describing the actions as a drive. The fact that nearly 3,000 prisoners were taken yesterday shows the surprise nature of the attacks and it also may undertake to waning the morale in the Austrian army. Officers here would not be surprised if the Austrian forces in view of the conditions at home, showed weakness under heavy assault.

The place selected for the attack indicates that the present operations may be preliminary steps to a major offensive. If the high ground between the Brenita and Piave rivers is carried in sufficient force observers here believe it might be possible for the Italian army, supported by French and British units and artillery and possibly by American troops, to reach the valley of the upper Piave and outflank the whole Austrian position on the lower stretches of the river running from the Monte Grappa plateau to the sea. Immediate withdrawal of the Austrian forces on this line would appear to be the certain result of any striking Italian success on the lines now under assault.

## TELEGRAPH BRIEFS

LONDON, Oct. 25.—Figures made public today on the growth of the British navy during the war show that the fleet, including auxiliaries increased from 2,500,000 tons displacement to 5,500,000 tons and the personnel from 146,000 to 406,000.

BASEL, Oct. 25.—By the Associated Press.—The German war cabinet considered President Wilson's reply at a lengthy session yesterday according to a Vienna dispatch. It was decided not to answer at the present time but to wait until it is learned what the entente's armistice conditions may be.

LONDON, Oct. 25.—Count Albert Apponyi has been appointed Hungarian premier in succession to Dr. Wekerle according to a Vienna dispatch to the Politikon of Copenhagen and forwarded by the Exchange Telegraph company.

LONDON, Oct. 25.—President Wilson's note was received in Berlin in the course of Thursday's sitting of the reichstag which immediately adjourned, according to an Exchange Telegraph dispatch from Copenhagen. Discussion of the note was taken up in sectional meetings of the reichstag members.

BRITISH HEADQUARTERS IN BELGIUM AND FRANCE, Oct. 25.—Reuter's.—The British were close to LeQuesnoy this morning after stiff fighting in which the Germans suffered heavy losses.

### CANADIAN CASUALTIES

Ottawa, Ont., Oct. 25.—The following names of Americans appear in tonight's casualty list: Killed in action—F. Kelly, Chicago; J. Clark, Harvey, Chicago; D. F. Frena, Alpena, Mich.; L. Williams, (address given as Sioux City, Mich.). Wounded—J. Murphy, Chicago; B. Larkin, Chicago; E. McTaggart, Detroit; T. Pellen, Detroit; F. S. Merquiss, Washington, Ill.; J. Miller, Marion, Ill.

### SNOW IN NEBRASKA

Ellsworth, Neb., Oct. 25.—Snow that began falling last evening covers the ground to a depth of three inches and still prevails. This termination of the unseasonable summer weather, bodes well as a check to the prevailing influenza epidemic. Reports indicate the snow fall is fairly general throughout the western part of the state.

### WEATHER INDICATIONS AND TEMPERATURES

## The JOURNAL'S SERVICE FLAG

cordance with law a convention cannot be held unless a majority of all persons who vote in the election are in favor of the proposal. There is a great difference between securing a majority of votes cast upon a given proposition and a majority of the votes cast in an election, and it is therefore in the danger of the proposition losing.

The Republican and Democratic state conventions, state labor organizations, Gov. Lowden, ex-Gov. Dunne, prominent jurists and other organizations and individuals have all strongly endorsed the constitutional convention plan and if it fails at the polls it will be because of the apathy of voters or their neglect to express themselves on this important question. Do not vote against the proposition by the mere failure to express your views.

**A CHANCE TO TEACH.**

If you want to be a teacher and have never been able to "land" a position that just seemed to suit you, now is your chance. Statistics just compiled show that there is a country wide shortage of 30,000 instructors in schools and colleges. To make good this shortage the U. S. bureau of education has just been authorized to establish a teachers' agency, with the hope of helping to fill the various vacancies. This program is recognized as a part of the U. S. war work because there are many reasons why educational work should not be neglected, even in war times.

**THE WAR'S MISSIONARY EFFORTS.**

Along with all the pain and suffering that the war has brought there are unmistakable benefits. A case in point is in the little known country of Albania, one of the Balkan states. There the natives, whose subsistence mainly comes from livestock raising and agriculture, have always followed primitive and out of date methods. They have tilld the soil with sticks instead of plows and their other implements have been just as much out of date. A recent picture shows an American made tractor plowing in an Albanian field and the natives are being taught the use of cultivators and steel plows of the type familiar on American farms. This is just a sample of the broad educational work which is being done thru army occupation of various countries. This is particularly true of some of the Balkan states, Mesopotamia and other lands in the locality. While the religious idea is usually associated with missionary work it is really missionary work of the most valuable kind that is being done in some of the countries occupied in military operations.

**HARD ROADS AND THE TICE LAW.**

Under the provisions of the Tice Law Morgan County has one and one-eighth miles of concrete and fourteen miles of oiled earth roads. Cass county has five miles and a quarter of concrete,

brick and macadam roads. Scott County has four miles of earth road and two concrete bridges. Pike County has one and two-thirds miles of concrete and four miles of macadam roads and Greene county has thirteen miles of oiled earth roads. These counties are fair examples of how the Illinois prairie counties have been building hard roads since the Tice road law went into effect in 1913, altho a few counties have already constructed county-wide systems of roads by issuing bonds to pay therefor. There is nothing permanent about the earth roads constructed except the concrete bridges, etc., built thereon.

If we do not speed up, no man now living will ever be able to use a state-wide system of hard roads in Illinois. If the Sixty Million Dollar Bond Issue is approved by the male voters on November 5, and after the state-wide system is adopted the counties can use the funds received under the Tice law to build connecting roads.

### A CALL TO RELIGIOUS SERVICES.

In these days when churches are closed on Sunday as an aid in the prevention of the spread of disease, it is indeed appropriate that church people observe some sort of service in their homes. A well known Jacksonville minister has suggested that it would be an excellent idea for people of the city and county to have church services in their homes at the uniform hour of 10 o'clock Sunday morning.

To support this excellent idea the minister prepared the outline of service which appears on another page of this paper. The service as outlined is brief, but complete and those who read the lines and enter into their spirit will find that the minister has covered present day conditions in a way which has suggested ideas which, if carried out in the hours and days following the service, will mean both righteous and useful lives. Save the page with this service outline for Sunday morning and then use it in your home. This will be worth while, whether or not you are in the habit of attending church services regularly.

These are the days and times when more people than ever before are turning toward religious thought. As has been said before, more people have cultivated a prayerful spirit in these war days than was possibly ever true in past years. The war leaders of the allies have indicated their faith in religious services and Marshal Foch not long ago made plain how deeply he was touched by the knowledge that the children of England at a common hour were saying prayers for his strength and success. "Tell them

to keep praying," the great war leader said. "For I have faith in prayer."

Even in the tumultuous board of trade in Chicago there has recently been established the custom of one minute of silent prayer as interpretative of the spirit of America in this war. In many cities and towns of America the angelic bell rings for prayers and in many industrial establishments a minute or two a day is devoted to silent supplication. So when these things are remembered, the suggestion for this uniform home church service seems to come with a special appropriateness.

### THE PRESIDENT'S SURPRISING APPEAL.

There is no disposition on the part of Republicans to take from President Wilson the full measure of credit he deserves for guiding the affairs of the nation thru a period of the greatest turbulence. The president has won the admiration and gratitude of the people by his general course and the people have come to feel that a really great man is in the president's chair. When the president some months ago used the phrase "these things are remembered," it meant a great deal to the nation, for it embodied the thought that war issues for the present are first and foremost and that matters of political jealousy or preference have been entirely forgotten.

It is when remembering this phrase that the people will read with the greater surprise the president's direct appeal to the people to elect a Democratic congress. That appeal, which undoes all political precedent, expresses the idea in unmistakable language that if a Republican congress is elected it will be a repudiation of his administration and will furnish encouragement for Germany. In other words the president suggests that the course of loyalty demands the election of a Democratic congress. This surprising statement of the president of the United States in direct line with the publicity matter issued by the Democratic national committee and sent broadcast upon the voters to elect a Democratic congress in the name of patriotism, virtually branding all Republicans disloyal.

A study of the records of the present congress shows how loyally the president has been supported by Republicans. It shows that without such Republican support that some of the most important war work of the president advocated would have been lost. It shows that a number of the most prominent Democratic leaders in the house and senate today failed to support the very measures on which the president has laid so much stress. In view of these facts the general public will marvel at the president's appeal. Certainly such an appeal is unwarranted by the facts. It is a pretty good guess that this document, intended as a direct and great aid to Democratic candidates, will react and instead of being an aid, prove a detriment. All broad-minded and loyal Americans believe in supporting the president to the limit of their power and ability. But this remarkable political appeal is unjustifiable and unworthy of his high office.

## Rippling Rhymes

By Walt Mason

**When Peace Comes.**

I know not when that peace will come, for which the people yearn; I know not when the sword and drum will to their shelves return. But I am sure that peace will be all wool and three feet wide, a fabric beautiful to see, no shoddy threads inside. No lords of war will help to weave the web o'er which we'll toil, and none who think that to deceive is authorized by Honor. The pattern (which should never fade) won't be designed by chaps who think the pledges they have made are merely paper scraps. I know not when the guns will cease the serenade of war, but I am sure the coming peace is well worth scrapping for. Long sacrifice has made us wise, we're on to Prussian wiles; we can't be lured by Prussian lies or fooled by Prussian smiles. Before we deal with gentils like these and let our sabers rust, the Prussians must be on their knees and humbled in the dust. I know not when great Foch will say, "Cease firing! All is done!" But we shall make, on that fair day, no bargain with the Hun. We'll show the fabric made by men who fairly played the game, and if he doesn't like it then, he'll have to lump the same.

### ELMER FERNANDES HEARD FROM

A. D. Fernandes has received a letter from his son, Elmer with the Butchers' regiment, 344 somewhere in France. The young man was well when he wrote and in good spirits tho he did say he regarded Illinois as about the best spot on the face of the earth. His command had gotten away from the rest and he was obliged to write on a piece of brown wrapping paper. No fault of the Y. M. C. A. as they were too far separated.

## A SERVICE OF WORSHIP FOR THE HOME, SUNDAY, OCT 27th, 10 A. M.

### INVOCATION—

"Vouchsafe, O Lord, Thy presence now; direct us in Thy fear; Before Thy throne we humbly bow, and offer fervent prayer."

### HYMN—

O for a closer walk with God, a calm and heavenly frame; A light to shine upon the road that leads me to the Lamb. What is the blessedness I knew when first I saw the Lord? Where is the soul-refreshing view of Jesus and his word. O may my walk be close with God, calm and serene my frame; So purer light shall mark the road that leads me to the Lamb.

### SCRIPTURE—

"God is our refuge and strength; a very present help in trouble. Therefore we will not fear, O Jehovah our Lord, how excellent is thy name in all the earth! Let the words of my mouth and the meditation of my heart be acceptable in thy sight, O Jehovah, my Rock, and my Redeemer."

### PRAYER—

God of our fathers and our God! May we be conscious of your presence and your power to help. Lead us gently into this worship that our spirits may be quickened and our souls refreshed. Bless our nation, our allies, our soldiers and our sailors and the cause of liberty and democracy. God Bless our community. Give your spiritual blessing of strength and peace to those who are afflicted; your comforting grace and power to those who mourn. We offer our prayer through Jesus the Christ. Amen.

### HYMN—

My faith looks up to thee, thou Lamb of Calvary, savior divine, Now hear me while I pray, take all my guilt away; O let me from this day, be wholly thine. May thy rich grace impart strength to my fainting heart, My zeal inspire. As thou hast died for me, O may my love to thee, Pure, warm and changeless be—a living fire.

### SERMON—Matt. 20:20-28—

After all man shapes and fashions his life and determines his destiny. God is not responsible for war, disease or famine. This war was caused by Prussian greed and autocracy. War was not decreed by God to punish a race or a nation.

Disease is not a judgment from God. It is the result of the operation of natural laws. Wherever you find disease you find a human being who has consciously or unconsciously violated the laws governing health. The individual, not God, is responsible. Physicians tell us that the best immunity from any disease is a healthy body and a normal mind. It is a mistake to pray God to make us well, unless at the same time we do our utmost to live in harmony with every law governing health.

Service is the keynote of the Christian religion. The motto of Jesus was, "I came not to be ministered unto but to minister." A man cannot be a Christian if he fails to render the best possible service to his fellowmen. He who serves his fellowmen most serves God best. Many citizens of Jacksonville have recently given a laudable demonstration of their Christianity in the unselfish service rendered so efficiently to those who because of affliction were unable to help themselves.

In this war-weary, sin-sick world hearts are acting as never before. By our Christian service we may open many of these hearts, that the spirit of the Great Physician may enter with his healing power. The most we can do for our fellowmen is the least we should do.

### HYMN—

"Look all around you, find someone in need—Help somebody

Today.  
Tho it be little—a neighborly deed—Help somebody Today.  
Many are waiting a kind loving word—Help somebody Today.  
Thou hast a message, O let it be heard and help somebody Today.  
Many have burdens too heavy to bear—Help somebody Today.  
Grief is the portion of some everywhere—Help somebody Today.

### BENEDICTION—

"The Lord bless thee and keep thee, the Lord make his face to shine upon thee; the Lord lift up his countenance upon thee and give thee peace." Amen.  
(The hymns in this service may be read.)

### WATER SUPPLY WORK AT STANDSTILL

Committee Must Delay Further Action Until Legislature Arranges For Leasing or Transfer of Reservoir Site.

There have been a number of inquiries made as to the status of the water proposition. Some months ago the people voted \$75,000 in bonds for the establishment of a reservoir and filtration plant. Subsequently the joint committee of city officials and citizens began an effort to secure the necessary land and plans for the proposed improvement were made and approved.

Some difficulties were encountered in securing leases or options and at a comparatively recent date the committee, according to a statement made yesterday by Dr. J. R. Harker, found that it would be impossible to secure at the present time the state land on which it is proposed to locate the new reservoir. The fact is that the state of Illinois in the name of Jacksonville State hospital owns 60 acres of land adjoining the present pumping station. State officials in charge of institutions are willing and anxious to co-operate with the city in bringing to pass the erection of a water plant, but it has been found that there is no legal way that this land can be leased or sold to the city without an act of the legislature.

Until this tract has been secured the committee feels that it would be useless to attempt to go ahead with the further financing of the proposition or in acquiring the adjacent property. There is a practical certainty that the legislature will take the desired action, if for no other reason, because of the vital interest of the state institutions here, but nevertheless the committee finds it impractical to take any further steps

in the proposition until after the legislative approval has been given. It is expected that this can be accomplished in the early part of the coming session of the legislature, which will be only a few months distant.

### JOINT LIGHT PLANT OPERATION PROPOSED

It has been proposed by the director of fuel conservation in Illinois to consolidate the operation of the municipal lighting plant of Springfield and the Springfield Gas & Electric Co. plant. It is proposed that because the gas and electric company, in addition to furnishing the electric lighting and power, produces during the winter months a large supply of exhaust steam which is used for heating purposes, that during the winter season the municipal plant shall shut down and buy current from the gas and electric company.

This operation of the gas and electric company's plant is to be during the winter months, the municipal plant to carry the load during the summer months. Thus far the suggestion has been made by the fuel administration and the city authorities and gas company authorities have been asked to hold a conference on the subject. Mayor Bauman proposes to hold a mass meeting of the people to discuss the question, just as soon as such gatherings are permissible under health regulations.

Youth Craft  
FOR THE HAIR  
AND SCALP

Means

No more dandruff  
No more itching scalp  
No more falling hair

Takes two minutes to apply and  
won't stain pillows if used at night.

A colorless, odorless, water-like liquid containing no oils, no fats, no dyes, and only 1% alcohol.

Makes women's hair fluffy, and frequently restores prematurely gray hair to its old-time natural color.

Instead of shampooing children it is wise to use Youth Craft on their heads every two to four weeks. It will keep the scalp white and clean, invigorate the hair-roots and tends to equip the scalp for life's battles with tight hat-bands and "mar-cell" waves.

Every user of Youth Craft has better and healthier hair than his neighbor. Inquire! At your druggist's.

Be sure and buy Youth Craft today. Insist on the genuine. It insures hair health.

M. F. DUNLAP HEADS RED  
CROSS ORGANIZATION

Was Selected by Recently Elected Directors—Brief Reports Made on Various Phases of Red Cross Work.

M. F. Dunlap was selected as chairman of the Morgan County Red Cross chapter by the recently elected directors at a meeting held in the public library Friday evening. Other officers selected are:

Vice Chairman—Edgar E. Crabtree.  
Secretary—Mrs. Lillian W. King.

Treasurer—C. A. Johnson. The executive committee will be composed of the officers named above and the following: Rev. Father F. F. Formaz, Mrs. Frank J. Heintz, F. J. Andrews, Miller Weir, W. L. Fay.

The chairman spoke briefly regarding the work of the chapter during the past year and of the future of the organization. He also mentioned that calls have been made for volunteers and of the difficulty in getting men thoroughly qualified for the work.

Mrs. Barnes reported that the names of two women who had volunteered for service had been sent to headquarters.

Rev. W. E. Collins gave an interesting report of the work of his committee in welfare work among the families of soldiers. The committee since Mr. Collins took charge of the work has been very active and much has been accomplished of benefit to dependents of soldiers in service overseas.

It was the sense of the meeting that chairmen of all committees engaged in Red Cross work be requested to meet with the executive committee at all of its sessions.

Rev. M. L. O'Patis spoke of the work of the association among the soldiers. Rev. Mr. Pontius has been in touch with this work while at various cantonments and was able to speak with authority of the splendid results attained.

**SOME WATER NOW.**

The recent rain was so gentle and high no one expected it would do much to help the local water situation but it did do a great deal. It started a right five run the creek from which a good quantity will be pumped and if we have no more the supply there will probably keep the south side pumps going quite a while.

Strange to say too the lake has two or three feet more water in it than before the rains and from the west and south pretty good streams are still flowing into it so that there will be several days' supply there when needed.

AT NICHOLS PARK.

Altho the season is practically over a good many people yet go out to the park and one inconspicuous individual drove in there Thursday in an automobile and did the drives no good and a few days ago a man without the thought of the welfare or convenience of any one beside himself, drove about the ground and the golf greens. Such a person deserves severe punishment.

The new superintendent, Mr. Hopper, and his assistant, are busy getting things in shape for winter. Wooden shutters to protect the monkeys have been made and painted and will be put in place as soon as the weather demands it. Wire screens have been removed from the eating pavilion and other places, repaired, properly painted and stored away. Several elm trees growing among the shrubbery near the pavilion have been taken out making a great improvement.

The seats have all been stored in the large pavilion and rainy days are being used in painting them so they will be in good shape for next year. The offending barberry bushes have been dug up and burned so if any wheat smut appears Nichols park will not be responsible for it. The park board has also decided on the removal of a number of haw trees and some other growths which are infected with scale and are of no use in the park. Some other unsightly growths have been ordered out.

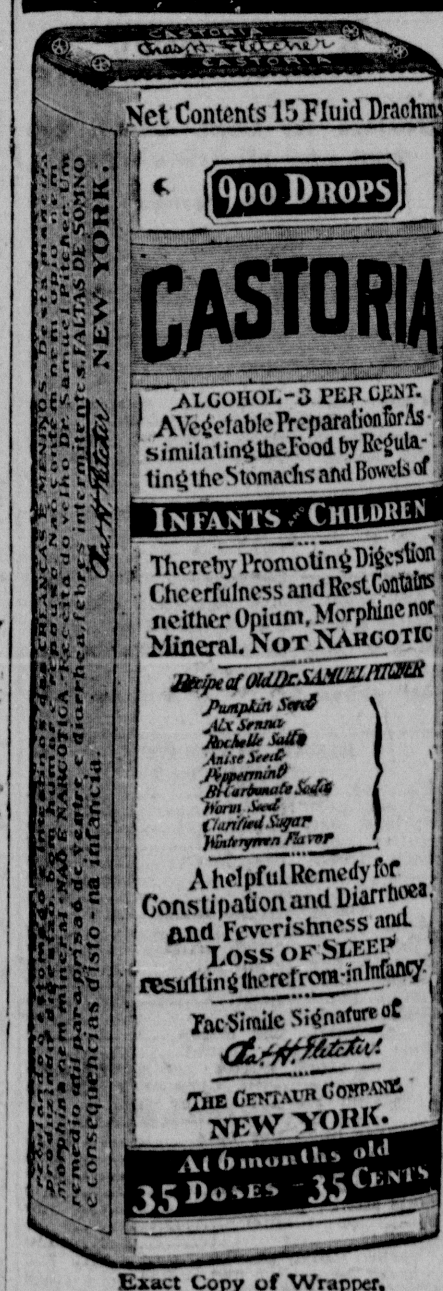

The great undertaking will be putting the large pavilion in order. It has been erected almost fifteen years and naturally will need overhauling and repairs. The wood work is to be repaired and the structure painted. The canvas winter shutters have been repaired and will be put in place in due season. Two jobs for cold weather have been laid out. One is to haul a lot of cinders to repair the drives where needed and the other is to begin to remove a lot of unsightly Carolina poplars that disfigure the park. They served their time and the time is out. Some of them are in the midst of shrubbery and a lot more of them are where they are not wanted. A row along the north border of the lake will be left and others where it may seem best but the best place for a majority of them will be elsewhere. It is the expectation to saw them off high at the ground bore a hole in the stump, fill it with coal oil, plug it up and the stump will be easily disposed of. A lot of peonies have been ordered and will be placed where they will be an ornament.

## MEREDOSIA BOY MEETS ACCIDENTAL DEATH

Lieut. M. L. Hope, of Marine Aviation Corps, Killed in Airplane Accident at Miami, Fla.—Funeral Services Monday—Other Meredosia News Notes.

Merodosia, Oct. 25.—Mr. and Mrs. Henry Steamer of Springfield, are visiting at the home of Mr. and Mrs. Clyde McAllister.

Mrs. B. R. Wile, spending the week in Peoria with her husband and son.

Mr. and Mrs. Floyd Giger and baby are visiting Mrs. Giger's parents in Pittsfield.

Mrs. G. M. Smith and daughter of Milton, are visiting the former's parents, Mr. and Mrs. William Wilday.

Mrs. W. T. Hedenberg of Versailles visited his sister Mrs. J. H. Looman Tuesday.

Mrs. Herman Adelman has been quite ill the past week with an attack of nervousness, but is now improving.

Mrs. Perry Six who passed away at her home near Chambersburg, Tuesday of pneumonia, following influenza, was brought here for burial Wednesday about twelve o'clock. The remainder of the family, nine in number, are all ill of influenza.

Miss Lela Baber of Nashville, Tenn., was calling on friends here Wednesday afternoon having been visiting her parents at Naples, the past week.

Miss Ruth Graves of Jacksonville, arrived Wednesday for a visit with Misses Esther and Frances James.

Mr. and Mrs. J. H. Looman received word Monday of the illness with influenza of their daughter Miss Greta, who is in the employ of the Government at Washington, D. C. Later in the week the welcome news came that she was slowly improving and was considered out of danger.

Our vicinity was again shrouded in gloom on last Tuesday afternoon when a message came announcing the death of Martin Hope which occurred at Miami, Florida, that morning while he and another student were making a flight.

Deceased was the son of Rev. and Mrs. William Hope of this city. He was born Oct. 27, 1897 in Independence, Kansas. He was educated in the public schools of Portland, Oregon and Pittsburg, Pa., graduating from the central high school of the latter city. It was here he competed for a scholarship offered by Harvard University for the highest grade, which he was successful in winning. He completed the four year course in three years, being only twenty years of age at that time. Last January he was chosen by the U. S. Government to be a member of a commission to France,

(the purpose of which was to take greetings from the eastern universities of this country to the University of France at Bordeaux.)

After graduating at Harvard he enlisted in the Marine Aviation Corps and was the second to be taken in twenty five that were selected from 850 applicants. He was trained at Miami, Fla. and just a short time ago he received his commission as lieutenant.

Deceased was a member of the Lutheran church and a regular attendant upon Divine services.

He is survived by his parents, two brothers, Rev. Richard Hope of University City, Mo., who was a visitor at the home when the news of the accident reached here; Herbert, in the service, and one sister, Helen, at home.

The funeral services will take place from the home Monday afternoon at two o'clock.

### LITERBERRY

The literary clerk sent us a regular old fashioned rain Thursday, but this did not dampen the ardor of the children of "Uncle Jackson" and "Aunt Mat" Henderson, who had planned a surprise for the old people for that day. The day being the thirty third wedding anniversary of this good couple.

L. A. Maul and family, John Myers and family, C. D. Henderson and family, all appeared with big baskets of the very best of good things, and proceeded to make a spread that would surprise any one, except a native of "Literberry." "Uncle Jackson" and "Aunt Mat" were able to hold their own at this board and you know that is doing wonderfully well, for old people, when you consider the company. Neighbors, friends and all people wish this couple many returns of this day.

We are glad to be able to report our "Flu" cases all doing fine. No new cases up to date.

J. C. McMillen of the county farm, was on our streets, Wednesday.

### WATCH AGENTS SELLING GOVERNMENT PUBLICATIONS

If a bland and agreeable patriotic person appears on the front porch and tries to persuade you to subscribe for some government publication—don't do it. Rather arrange for your neighbor, or small daughter to call the police.

Agents in many places are canvassing from door to door with publications purporting to be issued by the government. The government has authorized no such publications. Those it does issue, are always given away or sold at cost. In the case of certain school text books prepared by the Food Administration where the books are sold under contract with the publisher to charge the price fixed by competition, a price is made ranging from twenty cents to half a dollar.

Anyone engaging in soliciting for publications contrary to these rules is guilty of false representation, if not more. Such cases should be reported to the nearest authority and finally to the Department of Justice, for action.

### MISS WARDHAUGH WILL GO TO MONTANA

Miss Edna Wardhaugh, one of the capable teachers in the Washington school, has resigned her position here and accepted the place of teacher of music in the junior high school in Great Falls, Montana. The city has recently erected a new building and it will be ready for occupancy November first and the young lady will start for her new field of labor next week. She has been connected with the public schools for a number of years and has been a faithful and capable teacher and socially has a host of friends who will regret her departure but will wish for her all possible success and happiness. Her sister, Miss Florence, will remain in Jacksonville for the present.

## MAGAZINES WANTED AT ILLINOIS COLLEGE

Boys of S. A. T. C. Need Good Reading Matter—Some of the Publications Desired.

There is a need at Illinois College for magazines for the Y. M. C. A. reading room for the S. A. T. C. boys. These magazines should be new. If they are weeklies they should not be more than a week or two behind hand and if monthlies, not more than a month old. Such periodicals can be left at the Public Library and will be sent promptly to the Illinois College for the S. A. T. C. boys.

"The Boy Scouts will be responsible for seeing that the magazines are taken from the Library to the College at least once a week.

Some of the camps have been deluged with magazines. The postal regulations which permitted the public to send current magazines through the mails, by affixing a one cent stamp resulted in a vast influx of periodicals to the camps. These were of varying degrees of suitability. Some well intentioned people seem to have no idea as to subjects in which the men are interested. Others do not apparently distinguish between the literary tastes of men and women. The gravest criticism however on the collection of magazines received at the camps is that "the latest numbers are few and far between." The camp librarians also say that there are but few of the more expensive monthlies.

"Life" is in great demand and here in Jacksonville there is an opportunity for people who take weeklies such as "Life," "Literary Digest," "New Republic," and "Independent" to pass them on while they are new. They will not get old on the way if they are left at the Public Library for the Boy Scouts to deliver to the S. A. T. C.

It is almost certain that there are persons in town who have the "American," "Century," and "Herald," who will be willing to pass them on regularly and promptly even at some slight sacrifice to themselves.

The boys also like to look over "Popular Mechanics," "Illustrated World," "Popular Science," "National Geographic," and "Travel." Of course dates are not quite so important on these magazines as they are on those which deal with current questions.

The magazines can be left at the desk in the library or can be marked S. A. T. C. and dropped in the box out in front before the Library is opened in the morning.

### AN INGENIOUS MACHINE

In the front window of the shoe store of Hopper & Son is an ingenious piece of mechanism advertising the "Walk Over" shoe. A small circular table boxed in contains the mechanism and around it walks the figure of a gentleman presumably shod with "Walk Overs." Placed on the floor are several shoes and the figure is so constructed that it steps over the shoes in its path. The figure is perhaps twenty inches high and is very ingeniously constructed and attracts a great deal of attention.

### A VISITOR FROM LITCHFIELD

Miss Hazel Yager formerly a student in this city and now an accomplished teacher in the public schools of Detroit, the metropolis of Michigan, has been enjoying an enforced vacation at the home of her parents in Litchfield and is now favoring her friend, Miss Frances English, 717 West College street with an acceptable visit. The young lady is one of many talented persons who have been prepared in the educational institutions of Jacksonville for lives of usefulness and honor.

### ANNOUNCEMENTS

For County Clerk  
I hereby announce myself as the duly nominated candidate on the Republican ticket for the office of county clerk, subject to election Tuesday, Nov. 5, 1918.  
George L. Riggs.

At the recent Republican primary I was nominated for the office of assessor and treasurer and will seek that office at the election in November. Your support will be appreciated.  
Grant Graff.

I hereby announce myself as a candidate for sheriff of Morgan county on the Republican ticket to stand for a clean, efficient administration.  
Vincent R. Riley.

### FOR COUNTY COMMISSIONER

Having won the Republican nomination for county commissioner at the September primary, I am still in the race and am appealing to the patriotic people of Morgan county to assist me in going "over the top" on November 5. Your votes will be duly appreciated regardless of party or party affiliations.  
J. M. Swales.

## PRESIDENT APPEALS TO FELLOW AMERICANS FOR DEMOCRATIC CONGRESS

(Continued from page one)

### REPUBLICANS' REPLY

edly differ from the course pursued by the administration. We should not for example, fix a price on the farmers' wheat and leave the planters' cotton untouched. Another domestic question in which the Republican party believes is economic preparation for the coming peace and they are clearly of the opinion that the congress of the United States should not be excluded from that great task.

### Not a Personal War.

"This is not the president's personal war. This is not the war of congress. It is not the war of the Democratic or the Republican party. It is the war of the American people. It is more. It is the war of the United States, of the Allied powers, of the civilized world against the barbarism of Germany. In this great burden and responsibility the Republican party representing more than half the citizenship of the country demands its rightful share. If the Republican party is entrusted with power in either or both houses they will do everything possible to drive forward the war and hasten the day of victory. The president speaks of the necessity of telling the plain truth. That the Republican party in control of congress would do for they have no friends to shield and they will do more. They will give all their money to the last dollar necessary to sustain our armies and our fleets but they will check the waste now going on the money given by the most generous people on the face of the earth.

"The president speaks of the effect of the election abroad. He says there they understand the meaning of elections. They do, and they will know that if the Republicans have a majority in congress, the war will be pressed with greater vigor than ever before. They are quite aware that the power of the senate is equal to that of the president in the consummation of peace by treaty. They will know that the Republican party stands for a victorious peace and the overthrow of Prussian militarism. That knowledge will not depress the spirit of our Allies or encourage the government of Germany.

### Unconditional Surrender.

"The Republican party believes that the question of surrender should be left to Marshal Foch, to the generals and to the armies in the field. When they report that Germany has laid down her arms the United States and the Allies should then impose their terms. Will that knowledge cause dejection to those who are fighting with us? The world knows that the Republican party is opposed to negotiations and discussion carried on in diplomatic notes addressed to the German government.

"The Republican party stands for unconditional surrender. There is no Republican creed so short that there is not room in it for those two words.

[Signed.] "Henry Cabot Lodge," "Reed Smoot, Chairman," "Republican Senatorial Committee," "Frederick H. Gillett," "Simoon D. Fess, Chairman," "Chairman Congressional Committee."

### WILSON'S APPEAL

against Germany are quite familiar with the significance of the elections. They would find it very difficult to believe that the voters of the United States had chosen to support their president by electing to the congress a majority of those who are in fact not in sympathy with the attitude and action of the administration.

"I need not tell you, my fellow countrymen, that I am asking your support not for my own sake or for the sake of a political party, but for the sake of the nation itself in order that its inward unity of purpose may be extended to all the world. In ordinary times I would not feel at liberty to make such an appeal to you. In ordinary times divided councils can be endured without permanent hurt to the country. But these are not ordinary times.

"If in these critical days it is your wish to sustain me with undivided minds, I beg that you will say so in a way which will not be possible to misunderstand either here at home or among our associates on the other side of the sea. I submit my difficulties and my hopes to you.

"Woodrow Wilson."

FAMOUS WRITER DEAD  
Paris, Oct. 25.—Charles Leconte, writer of operas, died today.

M. LeCocq was 86 years old. Some of his operas are well known in the United States, especially "Girode-Girode," "The Little Duke," and "The Daughter of Madame Angot."

LeCocq was an officer of the legion of honor and also a member of the society of authors and composers.

### NEWSPAPER MAN DIES

Des Moines, Ia., Oct. 25.—Paul F. Bruner, 30 years old, member of the Des Moines Capital, editorial staff and formerly a Davenport newspaper man, died here early today from pneumonia, following an attack of Spanish influenza. He was ill ten days. His body will be taken to Rock Island, his former home.

## DEATHS

Pierson  
George E. Pierson a well known barber of the city died at his home, 403 East College avenue, about 10 o'clock Friday night of pneumonia following an attack of influenza. He had been in a critical condition for several days.

Deceased had been a resident of this city for a number of years and came here from the vicinity of Woodson. He is survived by his widow and two children. The remains were removed to Gillham's undertaking parlors and prepared for burial.

A more extended obituary and the time of the funeral will be announced later.

### Lyman.

Mrs. Hannah Lyman died recently at the home of her daughter, Mrs. John Wells, at Curran. The information of the death was recently received by a sister of the deceased, Mrs. Mary Kinnison, of this city. Mrs. Lyman was more than eighty years of age and had been ill for a long period. She lived in this city for a great many years and more recently had been a resident of Curran. Many friends here will regret to know of her death.

### DeFrates

The death of Mrs. Lillie DeFrates occurred recently in Springfield as a result of pneumonia. Mrs. DeFrates had been ill at the emergency hospital in Springfield as a result of the prevailing epidemic. She is survived by her husband, two sons and four daughters: George and Luther DeFrates, Mrs. Pauline Bringle, Mrs. Effie DeCamera, Mrs. Opal Wylda and Mrs. Warren. The deceased was related to Mrs. Annie Vieira and other residents of Jacksonville.

### Samples

Mrs. Tirzah Samples died at the home of her daughter, Mrs. Charles Bailey, 826 North Main street Thursday. Death resulted from pneumonia after an illness of about six weeks. She was convalescent when her daughter, Mrs. Gertrude Samples, died about a week ago and the shock brought a relapse which resulted in death. Deceased whose maiden name was Tirzah Buchanan, was born near Waverly, 62 years ago and had resided in that neighborhood all her life. Her husband died several years ago and since then she has made her home with her daughter, Mrs. Charles Bailey. One son, Allen of Auburn, and one daughter, Mrs. Charles Bailey of this city, survive. She also leaves three brothers, Henry, Alexander and James Buchanan, all residents of White Hall. The funeral will be held at Waverly this morning in charge of the Rev. W. J. Campbell, pastor of Waverly Baptist church.

### Griffith.

Mrs. Jesse Hicks, 851 Goltz avenue, has received word of the death of her father, Benjamin Griffith at Athensville, Green county. The deceased was 88 years old and had been an invalid four years, bedridden much of the time.

### Flynn.

Mrs. Thomas J. Flynn died at the family home three miles northwest of the city Friday morning at 4 o'clock. She had been ill ten days and death resulted from pneumonia which followed an attack of influenza.

Deceased was formerly Miss Theresa Wagner, daughter of Mr. and Mrs. Thomas Wagner of 838 North Prairie street. She was born in this city July 25, 1890 and her entire life was spent here. She attended the parochial schools and was a faithful member of the Church of Our Savior.

She was united in marriage April 28, 1914 to Thomas J. Flynn who survives her together with two children, Anna Catherine, aged 3 years, and Paul Joseph, aged one year. Husband and children are all quite ill of influenza at the present time.

She also leaves her parents and three brothers, James and John of this city and Ross of Hillview, and two sisters Misses Mary and Rose Wagner, both residing at home.

Mrs. Flynn was a woman of fine Christian character and was highly regarded in a large circle of friends. The sympathy of all will go out to the grief stricken husband and children.

Funeral services will be held from the residence of her parents Mr. and Mrs. Thomas Wagner, 838 North Prairie street Monday morning, the hour to be announced later.

### Matthews.

Lewis C. Matthews, aged 79 years, a resident of this city for nearly a half century, departed this life Friday at 8 a. m., at his home, 515 East College street after an illness extending over six weeks. He bore his suffering with heroic courage and when the Grim Reaper called his name he was ready to pass on and join the innumerable throng of his comrades gone before.

At the beginning of the civil war he enlisted in Company C, Second Illinois Cavalry, and served faithfully from July 31, 1861 to August 11, 1864, and participated in some of the fiercest campaigns that made the Army of the Mississippi illustrious for all time. His regiment took a gallant part in the historic siege of Vicksburg, which lasted from May 19 to July 4, 1863, when the garrison surrendered to Major General U. S. Grant.

When that Gibraltar of the south fell the "Father of Waters" was permitted to run unvexed to the sea, and to Comrade Matthews and others like him in the gallant armies of the west great credit was due for the many victories won from Cairo to the sea, thru the Carolinas and on to the Grand Review in Washington in May, 1865.

Matthews was of a retiring disposition and never boasted of his deeds in the civil war, but his record is as clear as a house's tooth, both in the army and in

civil life, and his record of loyalty to the old flag is a glorious heritage to leave to the sorrowing relatives and friends who mourn a good husband and father, and a faithful friend and a good neighbor.

He is survived by his widow, Mrs. Hattie Matthews, one son, Arthur, of Springfield, and the following relatives, three brothers, George Matthews, of Butler, Mo.; Marion Matthews, of Jeffersonville, Ind.; Aron Matthews, of Leadville, Colo., and four sisters, Mrs. N. J. Gibson of Jeffersonville, Ind.; Mrs. Lydia Arnold, of Leadville, Colo.; Mrs. Sarah Starkey of McAlester, Okla., and Mrs. Hattie Wells of Jeffersonville, Ind.

Mr. Matthews was a painter by occupation and a member of Urania lodge, No. 243, I. O. O. F., who will have charge of the funeral. Rev. W. R. Leslie, pastor of Centenary church, will conduct the services at the home, 515 East College street, at 3 p. m. Sunday. Burial will be in the family lot in Jacksonville cemetery.

Many, many friends who have known Comrade Matthews for nearly half a century can truthfully say, as did Fitz Greenlock over the grave of a departed friend:

"Green grow the turf above thee,  
Friend of my better days,  
None knew thee but to love thee  
None named thee but to praise."

### Stacy.

Mrs. Anderson Stacy of 1015 Mathers street received word Friday of the death of her daughter-in-law, Mrs. Alice Stacy on Thursday, Oct. 24, at Scottsburg, Indiana. Several weeks ago she went to be at the home of her mother, Mrs. Combes at Scottsburg in hopes of being benefited in health. The body is expected to arrive in the city Friday night. Arrangements for the funeral will be made later. Besides her husband she is survived by her mother, Mrs. Combes, two sisters and a brother.

## GREAT OLD REMEDY FOR SKIN DISEASES

S. S. S. Clears Skin of Eruptions—Drives Poison From the System

Get it fixed in your mind that skin eruptions, Scrofula, Eczema, burning, itching skin, and all skin diseases are due entirely to impure and infected blood. If the trouble was on the outside of the skin, by simply washing and keeping it clean you could obtain relief—not even ointments, lotions, and salves would be necessary. Agree with us in this belief, and your trouble can be relieved—you are entirely restored to health. S. S. S. is a purely vegetable treatment that you can secure from your own druggist—it is a blood tonic that will purify your blood and cause a most decided abatement of your trouble, and finally make you entirely well. Fifty years ago S. S. S. was discovered and given to suffering mankind. During this period has proven its remarkable curative properties as a blood purifier and tonic, and has relieved thousands of cases of disease caused by poor or impure blood, and chronic or inherited blood diseases. You can be relieved, but you must take S. S. S. Take it if only pimples appear, for they denote bad blood and may be followed by the sufferings from torturing skin eruptions. Therefore be sure. Don't take chances, don't use lotions. Get S. S. S. from your druggist. If yours is a special case, write for expert medical advice. Address Medical Director, 438 Swift Laboratory, Atlanta, Ga.

## Help! Help! Help!

Is what the people all over the State of Illinois are saying with reference to the Road Situation, and why? Why should it be necessary for **anyone** to be called upon to help with his vote, when it is the duty of everybody to vote for the **Good Roads Bond Issue**.

Good roads all over the State will benefit everybody that lives in the State, regardless of what one's occupation may be, and whether you own an automobile or not. If you own an automobile, you pay a State Tax, whether we have good roads or not. If you don't own an automobile, you don't pay any tax. Then why not vote to let the automobile owner pay for the good roads?

It all comes out of the Taxes paid into the State Treasury by owners of automobiles. Everybody is willing to admit that the automobile has been the means of improving the roads we have, and as the roads are to be built from the Taxes derived from automobile license, why not help pull Illinois out of the mud and vote yes on the Ticket on November 5th.

Don't be five or six years in making up your mind, like we were in voting for the "Stock Law." The stock law finally carried and has been the best thing that ever happened to the general public. Now as good roads are the next best thing and even a better thing for the general public than is the stock law, let everybody help pull Illinois out of the mud and vote yes on the proposition.

## SEEK FUNDS FOR ORPHANS IN FRANCE

Local Committee, Seeking to Interest People in This Worthy Movement— Orleans County Club First to Adopt Child.

As recently mentioned, the local Morgan county committee of which Mrs. W. T. Scott is chairman, is now making a special effort to have the county do its part in the war orphans appeal for aid. It is a comparatively small fund that is required to feed and clothe a child in France and so this worthy movement under the auspices of the state council of defense is under way.

A definite allotment of children has been made for the county and the purpose now is to have the necessary definite action taken. The Woman's Country club of Orleans is the first organization to adopt one of these children. Ten cents a day, \$3 a month, which means \$36.50 a year, supports a French child in its own home under its own mother's care. The slogan of the state council of defense is "Adopt a child and become its American friend." Those who aid in the cause will be given the child's name, age and other details and later on direct information will come from the protectors with reference to its progress and condition.

Persons or organizations who are interested in having part in this good work should telephone to Mrs. W. T. Scott, Bell 906-4.

Here are some further facts about the movement, taken from a statement issued by the council of defense:

"Today in France there are 200,000 fatherless children, 100,000 mothers left penniless to bring them up. Tomorrow there

will be more.

"The women of France have given to France, in her need, everything they have except their children. Unless America will help the children these mothers must make that last and most pitiful sacrifice. Food, clothes, medical care, grow scarcer and dearer every day. Hardships too bitter for even these sturdy little peasants are tearing out the lives of thousands of children. Tuberculosis is increasing alarmingly.

"The French government is doing all it can. To each one it gives 10 cents a day. But that is not enough to insure a vigorous next generation, strong in body and mind."

## LIBERTY LOAN WORK PLAN IN OUTLINE

E. E. Crabtree Illinois Chairman, Made Interesting Address Before Rotary Club—J. A. Munson Told of Club Work in Minneapolis.

At the weekly luncheon of the Rotary club at the Pacific hotel yesterday President Harry M. Capps called on J. A. Munson, a former citizen of Jacksonville, now resident of Minneapolis, to tell of the Rotary organization in that city. Edgar E. Crabtree later gave a resume of the Fourth Liberty Loan campaign in the eighth federal district. Mr. Munson said that the Minneapolis Rotary means a great deal to the life of that city, that the club membership is limited to 250 and that nearly that number attend each one of the weekly luncheons. The club there takes an active part in various movements for the general public welfare.

Mr. Crabtree talked informally but in a very interesting way of the Fourth Liberty Loan campaign and his familiarity with the work gave his remarks added value. "Volunteer days," said Mr. Crabtree, "did not adduce as much as the management had hoped for, although millions were subscribed during the three days. If the plan is followed in the next campaign there will be several weeks of preparatory effort. That, in the view of the organization is what is necessary to make volunteer days fully successful. Only two counties out of the forty four in the state wrote their quota within the volunteer days. They were Lawrence and Bond counties and in each case so much preparatory work had been done that one day sufficed. The managers there were not content with taking their allotment but sold bonds to a considerable extent after the quota had been met.

## Bond County's Record.

"In the case of Bond county the record shows that one person out of every three bought bonds in this campaign. This was done in face of the fact that the county's quota was two and one-half times as large as was that of the third Liberty Loan.

"In St. Clair county the plan was followed or having the people register somewhat as is done at an election. The plan had been thoroughly advertised and a very large number of persons registered on that day. Members of the committee were on hand with allotment cards and the subscription expected was indicated to each person. In this way about \$4,000,000 out of the \$6,000,000 allotted to the county was subscribed. Then publicity was given to the fact that the members of the organization felt that the people should make their subscriptions without being especially solicited. They said, 'We are all Americans. This is our war just as much as it is ours and there is every reason why you should come in and do your part without waiting for special solicitation.

"This action resulted in bringing the subscription list up to within about \$500,000 of the total. Then the committee listed the names of persons they accounted as slackers and sent them legally worded summons, signed by the committee asking them to appear at a certain time at the court house and indicate why they should not be reported to the department of justice. This was a very rigorous method, somewhat radical by comparison with the plan followed elsewhere but was very effective and in a comparatively short time the full quota of the county was made up.

"Before the campaign began, as the chairman of Illinois counties I had the feeling that the work would be completed in three days' time and a phrase suggesting this thought became a sort of slogan. When the campaign dragged I was frequently reminded of this slogan and I must confess that until a few days before the campaign closed I was really alarmed about the quota being completed within the time fixed. The peace talk should not have done so, but it did have a disturbing effect upon subscriptions and then came the influenza epidemic.

demie with its very decided disadvantages. Mr. Pontius, who was in charge of a train, can testify that in Mississippi and some other parts of the south it was almost impossible to do business at all because of the wide spread existence of the disease. But we kept hammering away and within three or four days of the close of the campaign it became apparent that the district would measure up to earlier expectations and go over the top.

"Another fact that added to the difficulty of the campaign was that the quota of Illinois and some of the other states were considerably more than double of the third Liberty loan and the people could not at first understand why quotas were more than double when the loan was just twice as large as that in the third campaign. This was due to the fact that the quotas were based this time on bank deposits, while before the bank resources were used. Some of the southern states are heavy borrowers at this time and their deposits were less than normal, so that their quotas were proportionately less than in the third campaign, while the quotas for the northern states were nearly all larger to make up for this shortage.

## Expenses Are Low.

"The twenty two men who make up the main organization in the eighth district receive no pay, and in fact there are very few persons associated with the work other than the stenographers who are receiving pay. If you were to visit the offices in St. Louis and see the large space occupied and the great number of people at work you would think the expense enormous, but by the comparison with the volume of business done the expense is small. The figures show that for the second Liberty loan the cost of marketing the bonds was 1-15 of one per cent and for the third loan it was about 1-18 of 1 per cent. The records are not complete for the fourth campaign but they will probably show a lesser cost. Before the first loan was floated there were many financiers who believed that the treasury department should follow the plan of marketing the bonds thru Wall street, as they believed it could be done with less trouble and expense to the government. It might have been possible to so market the first loan but it could not have been done with all the subsequent bonds. Bonds marketed in that way would have cost, practically 10 per cent, so the expense figure I have given abundantly prove the wisdom of the treasury department in proceeding thru the special Liberty loan organization."

At the conclusion of his talk Mr. Crabtree gave the opportunity for questions and a number were asked and answered. The speaker also made the interesting statement that the treasury department has decided to combine various financial activities. This means that Liberty Bonds, War Savings Stamps and Treasury Certificates will be handled thru one organization, and that in cooperation with the federal reserve banks hereafter there will be but one state chairman handling these financial matters and the same will be true of district and county chairmen.

## EXCHANGE SHOTS.

Some lads and a man residing just southwest of the city had an exchange of shots yesterday afternoon but fortunately no one was injured. It seems that boys, the several times warned, shot a pigeon belonging to the man in question. He in turn fired a shot toward the boys and they retaliated by sending some rifle bullets in his direction. It was an altercation which might have had disastrous results.

## J. BART JOHNSON HOME FROM SUCCESSFUL TRIP

In Charge of Jackie Band in Fourth Liberty Loan Campaign—Has Been Appointed Inspector of County Organizations.

J. Bart Johnson, the genial and popular band and orchestra leader, has just returned from an extended trip made in the interest of the Fourth Liberty Loan and is jubilant over its success, not only in the territory covered by himself and his Jackie band boys, but the entire country. Mr. Johnson speaks in glowing terms of the enthusiastic reception accorded them at all points in their itinerary, and everywhere manifested anxiety on the part of railroads, public utilities, business men and the public generally, to aid in every possible manner in putting over this last loan. The difference in the attitude of the people toward this and previous loan campaigns was marked, in that nowhere was there exhibited the least showiness. Every one was on his toes—the loan simply had to be put over, and it was.

Mr. Johnson was in charge of a large band from the Great Lakes district, a special train of Pullmans being provided for their use. His duties were to manage and direct the band and to assist in the sale of bonds. Their itinerary covered portions of Illinois, Missouri, Arkansas and Mississippi. The band's itinerary had to be changed many times on account of the epidemic of influenza and some districts being under quarantine.

He spoke of one town in Missouri where he had the pleasure personally of selling at their stand, \$37,800 worth of bonds. This was the largest amount sold at any one stand on the trip. One of the duties of the band manager on these trips was to arrange for and manage the sales campaigns.

A recent honor that has come to Mr. Johnson by reason of his activity in these loan matters, has been his appointment by the United States Treasury department, as inspector of county organizations in Illinois, an identification card being issued to him for that purpose.

There was one town in their itinerary that they were sorry to have to pass up. It was located on the border line of Arkansas and Missouri, and in it there was not a single home but that had on or more cases of influenza. The fatalities had not been great but its people were having a difficult time to obtain sufficient nurses.

One of the remarkable features of this Liberty Loan itinerary over a period of several weeks, with an organization of several hundred men, is that not one suffered a day's illness or showed a temperature. The Jackies were carefully guarded, being required to thoroughly spray throats and noses several times each day and in addition, at night, to use an oily liquid to keep the nostrils in a natural condition. When the Jackies were taken from the Great Lakes station they were examined as to health and general fitness and each was returned to his station in the same condition.

Mr. Johnson also stated that one of the good things a man finds out when traveling now about the country is the change that has come about in the attention given to the general public by employees of railroad companies and public utilities corporations. Their evident desire to be of service in every possible manner is gratifying and worthy of public mention.

## UNIFORM ROAD IMPROVEMENT

Not a chain of 102 county road systems, good, bad and indifferent, but one State-wide system of uniform dependable hard roads reaching into every county completed within five years after the war and paid for solely by auto owners and without one penny of taxation is what Illinois will get, if the Road Improvement Ballot receives a majority of the male votes cast on Nov. 5.

## MILITARY TRAINING IS SUGGESTED

Col. Oglesby Points To Advantages in Men of Draft Age Joining in Militia Drills.

In a letter to Capt. E. C. Vickery of Co. C, National Guard, Lieut. Gov. John G. Oglesby, who is chairman of the military committee of the state council of defense, urges that the attention of men between the ages of 18 and 45 be called to the fact that fundamental training can be secured thru the company. Capt. Vickery said last night that all men of draft age will be welcome at the company drills and that the officers will gladly give them some of the rudiments of training. Some of the men now in the service who began their military training with Co. C, have found that their work here was very beneficial to them in the army. The letter from Col. Oglesby reads as follows:

Springfield, Ill.,  
October 24, 1918.

Dear Captain:

May I again call your attention to my suggestion, made sometime ago that you, as commander of

your unit, extend a special invitation to all men in the draft ages of 18 to 45 to receive fundamental training in military tactics. To my mind this is a most important matter and will benefit all men taking such training regardless of whether they are called into the service of the United States.

I recommend that you arrange to have the papers carry a notice from you giving your drill nights and extending an urgent invitation to any man to come and drill with your company for so long as he can.

Sincerely yours,  
John G. Oglesby.

## INFLUENZA NOTES.

The influenza situation showed no special improvement in Jacksonville yesterday, with the number of new cases about the same as on previous days. In fact, the number was considerably increased by counting in the cases at the School for the Deaf. There, between 25 and 30 children in the castle are understood to have the influenza. This has happened, al-

tho strict quarantine regulations have been observed for several weeks past. Competent nurses are in charge and the children will receive the best of care.

The calls for the assistance of the Red Cross influenza committee continue to come in and active work is in progress. Mrs. G. C. Guthrie has been added to the committee and will have charge of the records and accounts. The business was growing to such an extent that it was found necessary to take this action. The committee has received a great many contributions of supplies, all of which have been very useful in their work. Acknowledgment is made also of the following cash contributions which were made without any request or solicitation: Mrs. F. B. Madden, \$1; Miss Mary Wadsworth, \$2; Jesse Henry, \$5; Mrs. D. B. Clarke, \$1; Dr. and Mrs. W. O. Walt, \$2; Mr. and Mrs. J. A. Ayers, \$5; Mrs. C. N. Thompson, \$5; Mr. and Mrs. A. C. Rice, \$2; Mrs. G. H. Harney, \$1; Mrs. Lucinda Kirby, \$10.
